Integration of Chatbot with HTML web page:

The screenshot displays the IBM Watson Assistant Lite interface for a chatbot named "Smart Fashion". The interface is divided into three main sections:

- Conversation steps:** A list of steps to define the chatbot's logic. Step 1 asks for the customer's first name. Step 2 asks for the customer's last name. Step 3 asks for an email address to send a calendar invite. Each step has a "Continue to next step" button.
- Customer starts with:** A section where phrases that trigger the chatbot's actions are entered. The total number of phrases is 12. The phrases listed are: "Enter a phrase", "I would like to discuss my situation face to face", "I want to talk in person with someone about my case", "Is it possible to set a date?", "Looking for a dress", and "Suggest me a dress".
- Preview:** A section showing a simulated conversation between the customer and the chatbot. The chatbot's responses are: "To set up a meeting, I'll need a few details. First, what's your first name?", "I'm afraid I don't understand. Please rephrase your question.", "To set up a meeting, I'll need a few details. First, what's your first name?", and "Thanks! And what's your last name?".

The interface also includes a "New step" button and a "Learning center" link.

The screenshot displays the IBM Watson Assistant Lite interface for a chatbot named "Smart Fashion", showing the "Preview assistant" section. The interface is divided into two main sections:

- Preview assistant:** A section showing a simulated conversation between the customer and the chatbot. The chatbot's responses are: "To set up a meeting, I'll need a few details. First, what's your first name?", "I'm afraid I don't understand. Please rephrase your question.", "To set up a meeting, I'll need a few details. First, what's your first name?", and "Thanks! And what's your last name?".
- Website Integration:** A section showing the chatbot integrated into a website. The chatbot is displayed as a floating window on a website background. The chatbot's responses are: "To set up a meeting, I'll need a few details. First, what's your first name?", "I'm afraid I don't understand. Please rephrase your question.", "To set up a meeting, I'll need a few details. First, what's your first name?", and "Thanks! And what's your last name?".

The interface also includes a "Copy link to share" button, a "Change background" button, and a "Customize web chat" button.
